Development
Day!

**QSPEC PROFESSIONAL
DEVELOPMENT DAYS**

Qspec Professional Development Days offer Health Professionals in the home modification industry a free opportunity to learn about home modifications and Qspec's products and services. Whether held within the Qspec showroom in Maroochydore, or delivered face to face in an alternate location, these days equip attendees with insights into both complex & non-structural modifications, assistive technologies and key insights into a smooth referral process. The content is presented in six modules, taking 2 to 4 hours to complete, with all attendees receiving a certificate of attendance. These days provide a perfect setting to understand the home modification process and how Qspec can support Health Professionals and their clients.

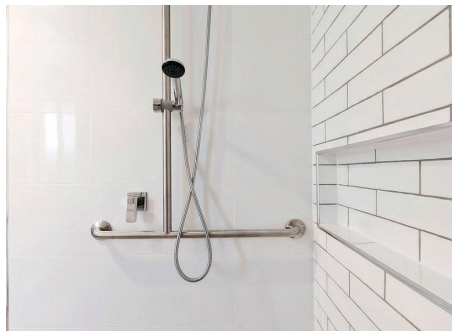

**MODULE 1:
INTRODUCTION TO QSPEC**

**MODULE 4:
ASSISTIVE TECHNOLOGY**

**MODULE 2: NON-STRUCTURAL
MODIFICATIONS**

**MODULE 5:
COMPLEX MODIFICATIONS**

**MODULE 3:
